LEARN FROM THE EXPERT

- Professional advice on natural skin care, simple applications & how to blend therapeutic recipes for common skin disorders including baby, child & pregnancy.
- Essential know-how to confidently recommend & blend essential oils, carrier oils, gels & creams.
- Clear & practical steps to effective, safe family care using therapeutic plant oils.

RECEIVE ADVICE ON:

- How to recognize common ingredients – good and bad – and how to decipher product labels
- How multiple healing and nutritional compounds in pure plant oils are naturally and easily absorbed into the skin and can be blended to attend to specific skin types or conditions.
- How you can use a range of plant oils and creams to make therapeutic blends for almost any skincare purpose: fortify the skin's protective function; nourish & condition the skin at cell level for elasticity & tone; to aid the recovery processes for infection, inflammation, irritation & tissue damage.
- How to select therapeutic dosage, frequency & dilutions for: Topical / Compress / Massage / Bath / Direct / Perfusion in Creams, Balms, Gels
